

A BRAND NEW BOOK!  
DISCOVER HOW BANKS OPERATE!

DECEMBER 2018  
VOLUME 5, ISSUE 4

## BANK MANAGEMENT – BANKING

“There are numerous reference books in Hungarian on the banking sector and the operation of the financial and banking markets, however so far only a few substantial books provided a comprehensive look on the complex banking operations and financial processes. This book has been created as a result of an unprecedented cooperation, since a substantial part of it was written by active bankers who in their everyday life are in fierce competition with each other. I am confident that this work will provide great help in training specialists thanks to its practice-oriented approach and will also be a great companion to readers interested in these topics.”

**Sándor Csányi,**  
President and CEO of OTP BANK

The electronic version of this brand new book is available on the website of the International Training Center for Bankers!
